Transformer: Waiting area for hairdresser

The Transformer waiting seat line is composed of three components that can be used either individually, or combined in a variety of options, depending on the need and taste of the hairdresser. The Transformer is available without a backrest, or with a backrest fixed to either the wide or narrow side of the waiting seat, creating a host of possibilities when arranging the waiting seats in a salon. The waiting seats are padded and available in a wide choice of colours at no extra cost.
